

# PEER MENTOR

## ROLES AND RESPONSIBILITIES

### ABOUT US

The Composition Learning Community provides the students of English 1010 and 1020 with peer mentors, who have successfully completed the course, to provide support, information, and a general knowledge of course material, as another resource offered to help them thrive throughout the semester.

#### **STRATEGIZING AND SIMPLIFYING PROMPTS**

The peer mentors are available to help simplify the assignments and rubrics, while strategizing with you on how to approach an assignment with proper instruction.

#### **GUIDED BRAINSTORMING WITH ONE ON ONE HELP**

With each project in your course, brainstorming is required in order to understand what you're going to create and ultimately hand in for a final grade. Your peer mentors are here to help you come up with various ideas and get you on track to success!

#### **GETTING MORE OUT OF YOUR ENGLISH EXPERIENCE**

Your peer mentors are here to help you find the best possible solutions to your problems that may come up during the semester. As they are qualified to help you in certain situations, they can help guide you to the various resources available to you to complete your course with success!

### LOOKING FOR MORE?

If you're looking to get in touch with the peer mentors, check your Blackboard site for contact information, and feel free to ask them questions relating to any concerns in your English course. Remember, utilizing your resources, such as your peer mentors and your instructors, is vital in your ongoing success throughout the English courses you'll be taking at Wayne State, so feel free to reach out when needed!
